

# Nursat Kulymzhanov

Data Scientist

---

+7-705-276-13-46 — [nkulymzhanov@gmail.com](mailto:nkulymzhanov@gmail.com) — [linkedin.com/in/altasruni](https://www.linkedin.com/in/altasruni) — [kaggle.com/qulymzhanov](https://www.kaggle.com/qulymzhanov)

## Education

**International Information Technologies University**  
Bachelor of Software Engineering

2020 - 2024

- **Diploma Project: Development of a System for Monitoring the Dynamics and Analyzing the Cognitive Performance of Users**
  - Project Planning and Coordination.
  - Content Development.
  - Integration of Neural Networks.

## Experience

**Akimat of Bostandyk District of Almaty**  
Interviewer

2021

- Worked directly with data collection, conducted surveys, and uploaded data to the database.
- Developed teamwork, responsibility, punctuality, and learned to work on deadlines.

**BV Engineering**  
IT Specialist Intern

June 2022 - July 2022

- Performed various tasks from printer maintenance to database queries.
- Developed skills in SQL, Python, and libraries like numpy, pandas, seaborn, sklearn.

**Siemens**  
Junior Research and Development Engineer

March 2023 - October 2024

- Worked with data labeling tools, project testing scripts, and computer vision algorithms.
- Introduced to Tensorflow/Keras library and developed an image shift preventing algorithm.
- Built models for segmentation and classification tasks.
- Researched and generated new ideas.

## Projects

- Created Text classification model for a data lake.
- Trained Model for Audio Classification.
- Developed Script to Reduce Image Shifting.
- Trained Model for Building Classification.
- Developed Script to ETL process(Images)

## Technical Skills

Languages: Python, C++, SQL  
Developer Tools: Git, PyCharm, Jupyter Notebook  
Libraries: numpy, pandas, seaborn, sklearn, Tensorflow/Keras
